WHAT TO CONSIDER WHEN CHOOSING A GUARDING COMPANY:

- Is the company and all its employees accredited with the correct security institutions – PSIRA?
- Do they pay all employees the gazette rates?
- Do they have a management support structure with access to investigators, polygraphists, security experts and technical support with a proven track record?
- Do they employ only the highest quality employees, forming a team that can understand you and your company's unique requirements?
- Do the employees have the necessary skills, experience and onsite and offsite training – are they able to assess each situation and react to it in the appropriate manner?
- Is the Guarding company committed to constant improvement and keeping up to date with the latest crime-prevention trends? Methods of crime are constantly evolving and a guarding company needs to be aware of this and strive to adapt to methods appropriate to the times.
- Are the guarding company's packages able to suite your requirements but also be affordable and offer market-related prices?

SB GUARDING offer all the above and more. We are a young, dynamic and forward-thinking company bent on offering the best crime-prevention solutions! We pride ourselves on offering the most reliable and effective solution tailored for you.
